

# AFFIRMATIONS FOR CREATIVITY

## **I love and appreciate my creativity**

I am a vibrant creative being

I live in a time where creativity is celebrated

I ignite my creativity in ways that inspire and spark joy

My creativity does not harm others

I regularly refill my creative tank in healthy ways

I restore my creativity with rest and quiet my mind with meditation

## **My creativity is my essential storytelling and it's safe for me to tell it**

I express my creativity in many ways because it is endless

I explore as I create and all exploration is worthy

All creation is worthy

## **I speak life over my ideas and work and thank them for appearing**

I trust in divine timing and big magic

I respect ideas that aren't to be mine and let them go with ease and grace

I acknowledge and act on ideas that warrant exploring

I give my full attention to my creativity when it is sparked and I relax without expectation in times of rest

I respect the ideas of others and appreciate cyclical and unending inspiration we as one universe provide each other

I hold a special space for my creativity no matter where I am executing it

## **I see projects through to completion when they are important to me, and even when challenged, my creativity persists**

I know that growth comes from breaking through challenges and my personal act of practice and perseverance, more so than from recognition

I take recognition with grace and use it to fuel my work, not my ego

## **I have a healthy relationship with money and know the value of creativity**

I allow for abundance in my creative life and am rewarded beyond my wildest dreams

I am a creative magnet

## **I love to stretch my potential**

My comfort zone is not where I live

My creativity is a gift

I appreciate the creativity of others without judgement or comparison

I execute on my ideas with confidence and timeliness

My creative life brings me joy

My creative light shines brightly and inspires others

My creativity feels easy and playful

I create with my heart, not with my ego

*I love you, thank you.*
